Whether you are a business suffering from unpaid invoices or an individual who is owed money, bad debts spell bad news to everyone.

Not only is bad debt an inconvenience but a situation which can have a long term damaging effect on both your cash-flow and your peace of mind. Curtis Parkinson has helped individuals and organisations across the country to recover debts and property.

### Things to remember...

Where people are late payers, the law provides you with the right to claim compensation in accordance with the Late Payment of Commercial Debts (Interest) Act 1998 as well as interest if your terms of business so provide. Having properly drawn up terms of business stating that invoices are payable 'on demand' will stop you losing out if you are waiting around the payment.

Frequently a letter from us threatening court action will result in payment. It is important to make sure that you recover your debts as quickly and efficiently as possible and we can offer a fixed fee service.

## How we can help

We aim to recover monies owed to you in a quick, efficient and cost effective manner.

Our debt recovery team is able to offer a bespoke service which ranges from action to recover a one off debt to bulk debt processing and defended actions.

Nobody likes a bad payer but life sometimes makes this inevitable, so let our specialist team help you get what you're owed as quickly as possible.
